How about this for a response via the pesticide questions email box (combining our template with the statement)

Hi Ed,

(Greg suggested I reach out to you on this)

As you might remember, I am helping fill in as ombudsman for Nicole while she is on detail. We are starting to see a plethora of inquiries of complaints of pet illnesses about pet collars likely in response to the USA Today article.

Here is our template response for pet incidents:

*Thank you for writing the Environmental Protection Agency's Office of Pesticide Programs.*

Would you like us to keep using this response, or would you like us to add anything?

A suggestion might be:

-We are aware of the increased attention from pet owners about the Seresto flea and tick collars and we are looking into it.

Please let me know what you think.

Thank you!

Hi Darlene, PRD is looking at fact sheets for AEZ, atrazine, glyphosate, and chlorpyrifos to see whether updates to the fact sheets are needed. We agree M-44 should come off this list.

RD I believe has a fact sheet on Seresto and dicamba but I haven't touched based directly on those two.

Looking at the memo it appears our updated fact sheets are due March 31<sup>st</sup>?

Budget Factsheets are coming. Schedule coming soon. Step one is to trim the list of any no-longer-relevant topics (eg. Please coordinate with Mike and Darlene on what topics you think should come off, what topics you think we should add, and what topics you think we should update (eg. AEZ).

Thanks,

We'll be able to work with OCFO to provide fact sheets on the topics that we think are most appropriate.

Hi Darlene, PRD is looking at fact sheets for AEZ, atrazine, glyphosate, and chlorpyrifos to see whether updates to the fact sheets are needed. We agree M-44 should come off this list.

RD I believe has a fact sheet on Seresto and dicamba but I haven't touched based directly on those two.

Looking at the memo it appears our updated fact sheets are due March 31<sup>st</sup>?

Hello. PRD is working on the fact sheets for several chemicals and AEZ. What is the review process on these? Should we include the DDs when we share with you or should we circulate to the DDs before sending to you? There is not a lot of time for wide circulation if the due date for revisions is Wednesday. Thank you.

**Subject:** RE: FY 2022 Appropriations Hearings – New or Updated Fact Sheets due to OPS COB 3/31

Hi all –

As requested by Rick at the OCSPP IO leadership meeting, I'm writing to pass on OPPT's suggestions for edits to the topic areas for the fact sheets/table of contents. We're passing this up sooner than his requested deadline of Monday, as the fact sheet process is a pretty heavy lift for the program – so we'd like to get started on the list (as modified below) right away tomorrow morning. Please let us know if you anticipate any issues!

OPP – our sense was that you would be a lead on the number of the joint fact sheets, but if I am incorrect in this assumption please let me know!

Best,  
Alison

Fact Sheet Number	Topic	OPPT Recommendation
1	TSCA Existing Chemicals	OPPT suggests that we split into two papers: 1) Risk Evaluation and 2) RM.
2	TSCA New Chemicals	OPPT - Keep/update
3	PFAS TRI and TSCA	OPPT - Keep/update
4	PFAS and Pesticide Containers	OPP lead – but OPPT should review
5	AEZ	OPP
6	Asbestos	Keep/update
7	Glyphosate	OPP
8	OCSPP RTP Presence	OPS
9	Biotech/PIP	OPP lead – but OPPT should review for the few lines on TSCA

10	NAS Systematic Review Contract	Keep/update (and rename to Systematic Review)
11	Chlorpyrifos	OPP
12	Dicamba	OPP
13	Eliminated Program: EDSP	OPP
14	Atrazine	OPP
15	Invora Herbicide Review	OPP
16	FIFRA & ESA	OPP
17	Formaldehyde IRIS Assessment	Keep/update. OPPT can lead this, but OPP should also review/contribute.
18	GAO Audit on Chemicals	Keep/update
19	Lead	Keep/update
20	PCBs	Keep/update
21	Reduction of the Lead-Based Paint Program	Delete, per OPS suggestion.
22	Reduction of the TRI/Right to Know Program	Delete, per OPS suggestion.
23	TSCA Methylene Chloride	Keep/update
24	TSCA Section VI Rules (TCE, MC, NMP)	Delete and fold into "existing chemicals RM" fact sheet suggested above.
25	Animal Testing	OPP lead – OPPT should review
26	Hemp	OPP
27	Sulfoxaflor	OPP
28	M-44 Sodium Cyanide	OPP
29	Pollution Prevention Program	Keep/update
30	Oxitec	OPP
31	Pollinators	OPP
32	TCE Risk Evaluation	Delete. Rather than doing a separate fact sheet on TCE, we should fold this into the Scientific Integrity fact sheet being developed (below).
33	COVID-19 Disinfectants	OPP
NEW	PBTs	OPS suggestion. Agreed.
NEW	Scientific Integrity	OPS suggestion. OPPT suggests that OPS take lead, and that OPP and OPPT review as appropriate.
NEW	Data Gathering	(Tentative) OPPT suggestion – we're still scoping this out.

**Subject:** FW: FY 2022 Appropriations Hearings – New or Updated Fact Sheets due to OPS COB 3/31

Good afternoon,

In order for the Administrator to prepare for the approaching FY 2022 Congressional budget hearings, OCFO has asked for us to update OCSPP fact sheets. We've annotated responsible Offices in the attached Table of Contents. Please consider any areas of considerable public or Congressional interest that may warrant a new fact sheet to be developed. The attached zip file includes the most recent versions of fact sheets from last year.

In order to meet OCFO's very tight timeline, we're asking for you to provide your OD approved fact sheets by **COB Wednesday, March 31**. That will allow us time to clear through Michal and revise as necessary. As outlined in the Table of Contents, we'll propose to OCFO that some of these topics be deleted. Note that OCIR and/or our leadership have asked for new sheets on the following topics:

- 1) Scientific Integrity;
- 2) Recent Actions on PBT Rules;
- 3) Seresto Pet Collars;
- 4) PFAS and Pesticide Containers; and
- 5) Pollution Prevention.

We'll keep you apprised of any additional new topics that are requested. If you have any questions, please let Brian, Khanh or me know.

Thanks,  
Dan

Hi Kristien

Sorry - it's been a full day. I agree we need to get updates from the leads on where they are and have deadlines. There are a lot of folks out bc of spring break, so instead of trying to narrow it down and figure out who is in, suggest we set up another meeting with the same list. Is that OK?

Hi Michael—I wonder if a smaller meeting might be more helpful at this point. I noticed that the draft is still missing the inputs from OPP, so I'd like to figure out how to engage folks in your office to fill in those blanks. It seems like maybe we should identify individual drafters and give deadlines. If you have a few minutes later today, could we connect?

**Subject:** FW: FY 2022 Appropriations Hearings – New or Updated Fact Sheets due to OPS COB 3/31

Good morning,

Following are a couple points of clarification for this fact sheet exercise and a brief budget update for the FY 2022 President’s Budget.

**OCSPP Fact Sheet Internal Timeline:**

- **Monday COB, 3/29** – As Rick mentioned yesterday, input from Offices on any +/- changes to the list of fact sheet topics are due to OPS. Minor updates are included in the attached Table of Contents v3 based on OPPT and OPS feedback received yesterday.

- **Wednesday COB, 3/31** – Office Director approved fact sheets due to OPS;
- Thursday, 4/1 – on a rolling basis, OPS begins clearance through Rick;
- Friday, 4/2 – on a rolling basis, OPS begins clearance through Michal;
- Monday, 4/5 – OPS to provide OCSPP final fact sheets to OCFO.

*For the fact sheet template resource table, OPS can take the lead in populating FY 2022 President's Budget data, where applicable, once it becomes available.*

**Multi-Office Fact Sheets:** to avoid confusion, we propose that the following Offices take the lead, in consultation with other contribution Offices:

- 1) OPP – PFAS and Pesticide Containers;
- 2) OPP – Biotech/PIP;
- 3) OPP - Animal Testing;
- 4) Scientific Integrity – delete, ORD to take lead.

**Budget Update:**

- FY 2022 President's Budget Blue Print is planned to be released in April.
- Associated Congressional Justification final guidance and preparation timeframe are not yet known, but it is anticipated to be transmitted to Congress by mid-May, after the Hearings take place.
- Fact Sheets will be used by OCIR and OCFO in preparing the Administrator for the Committee Appropriation Hearings scheduled for late April through early May, as shown below.
  - HAC – April 21, time TBD
  - SEPW – April 28, 10AM
  - HEC – April 29, time TBD
  - SAC – May 12, time TBD

Again, If you have any questions, please let Brian, Khanh or me know.

Thanks,

Dan

**Subject:** FW: FY 2022 Appropriations Hearings – New or Updated Fact Sheets due to OPS COB 3/31

Good morning,

Following are a couple points of clarification for this fact sheet exercise and a brief budget update for the FY 2022 President's Budget.

**OCSPP Fact Sheet Internal Timeline:**

- **Monday COB, 3/29** – As Rick mentioned yesterday, input from Offices on any +/- changes to the list of fact sheet topics are due to OPS. Minor updates are included in the attached Table of Contents v3 based on OPPT and OPS feedback received yesterday.
- **Wednesday COB, 3/31** – Office Director approved fact sheets due to OPS;
- Thursday, 4/1 – on a rolling basis, OPS begins clearance through Rick;
- Friday, 4/2 – on a rolling basis, OPS begins clearance through Michal;
- Monday, 4/5 – OPS to provide OCSPP final fact sheets to OCFO.

*For the fact sheet template resource table, OPS can take the lead in populating FY 2022 President's Budget data, where applicable, once it becomes available.*

**Multi-Office Fact Sheets:** to avoid confusion, we propose that the following Offices take the lead, in consultation with other contribution Offices:

- 1) OPP – PFAS and Pesticide Containers;
- 2) OPP – Biotech/PIP;
- 3) OPP - Animal Testing;
- 4) Scientific Integrity – delete, ORD to take lead.

**Budget Update:**

- FY 2022 President's Budget Blue Print is planned to be released in April.
- Associated Congressional Justification final guidance and preparation timeframe are not yet known, but it is anticipated to be transmitted to Congress by mid-May, after the Hearings take place.
- Fact Sheets will be used by OCIR and OCFO in preparing the Administrator for the Committee Appropriation Hearings scheduled for late April through early May, as shown below.
  - HAC – April 21, time TBD
  - SEPW – April 28, 10AM

**Subject:** FW: FY 2022 Appropriations Hearings – New or Updated Fact Sheets due to OPS COB 3/31

Good afternoon,

In order for the Administrator to prepare for the approaching FY 2022 Congressional budget hearings, OCFO has asked for us to update OCSPP fact sheets. We've annotated responsible Offices in the attached Table of Contents. Please consider any areas of considerable public or Congressional interest that may warrant a new fact sheet to be developed. The attached zip file includes the most recent versions of fact sheets from last year.

In order to meet OCFO's very tight timeline, we're asking for you to provide your OD approved fact sheets by **COB Wednesday, March 31**. That will allow us time to clear through Michal and revise as necessary. As outlined in the Table of Contents, we'll propose to OCFO that some of these topics be deleted. Note that OCIR and/or our leadership have asked for new sheets on the following topics:

- 1) Scientific Integrity;
- 2) Recent Actions on PBT Rules;
- 3) Seresto Pet Collars;
- 4) PFAS and Pesticide Containers; and
- 5) Pollution Prevention.

We'll keep you apprised of any additional new topics that are requested. If you have any questions, please let Brian, Khanh or me know.

Thanks,  
Dan

Attached is the biostimulants fact sheet from BPPD for OPP IO review. Please note that in order to keep this to 1 page, we only included 1 of the possible proposed definitions of a biostimulant. If we trim elsewhere we could include the second which is below. The team felt it important to at least provide one of the definitions in the fact sheet.

Here's the other proposed definition for PBS from the USDA's 2019 report:

"A plant biostimulant is a naturally occurring substance, its synthetically derived equivalent, or a microbe that is used for the purpose of stimulating natural processes in plants or in the soil in order to, among other things: improve nutrient and/or water use efficiency by plants, help plants tolerate abiotic stress, or improve characteristics of the soil as a medium for plant growth. The characteristics may be physical, chemical, and/or biological. The plant biostimulant may be used either by itself or in combination with other substances or microbes for this purpose."

**Subject:** FW: FY 2022 Appropriations Hearings – New or Updated Fact Sheets due to OPS COB 3/31

Good afternoon,

In order for the Administrator to prepare for the approaching FY 2022 Congressional budget hearings, OCFO has asked for us to update OCSPP fact sheets. We've annotated responsible Offices in the attached Table of Contents. Please consider any areas of considerable public or Congressional interest that may warrant a new fact sheet to be developed. The attached zip file includes the most recent versions of fact sheets from last year.

In order to meet OCFO's very tight timeline, we're asking for you to provide your OD approved fact sheets by **COB Wednesday, March 31**. That will allow us time to clear through Michal and revise as necessary. As outlined in the Table of Contents, we'll propose to OCFO that some of these topics be deleted. Note that OCIR and/or our leadership have asked for new sheets on the following topics:

- 1) Scientific Integrity;
- 2) Recent Actions on PBT Rules;
- 3) Seresto Pet Collars;
- 4) PFAS and Pesticide Containers; and
- 5) Pollution Prevention.

We'll keep you apprised of any additional new topics that are requested. If you have any questions, please let Brian, Khanh or me know.

Thanks,

**Subject:** OPP IO review: Seresto Press Inquiry on EPA/FDA jurisdiction DDL 3/30 5pm  
**Importance:** High

Hi – Following up on a previous Seresto inquiry, the report reached out again to EPA as well as to FDA (email below) asking for clarification on jurisdiction of pet products. We are coordinating on sharing the same response/or just having EPA respond for both agencies.

Below is the response that we'll propose to FDA to also use.

**Incoming**

I'm a reporter for the Journal of the American Veterinary Medical Association, and I could use some help finding details on how the EPA and FDA divide jurisdiction over pesticides applied to pets. Can anyone from the agency help?

I know the EPA regulates at least some topical products and flea and tick collars, but I've been unable to find any agreements or guidance that says which types of products are regulated by which agency. These details would be helpful for an article currently in editing, and I need to give my editors any additional information by 5 p.m. Eastern tomorrow (Tuesday, March 30).

## Response

Flea and tick products for pets are regulated by either the Food and Drug Administration (FDA) or the Environmental Protection Agency (EPA). FDA and EPA have an interagency committee that evaluates products on a case-by-case basis to determine the appropriate regulatory agency.

Generally speaking, FDA is responsible for approving animal drugs and regulates flea and tick products that are given orally, including pills and swallowable liquids, or by injection. EPA regulates those products that are applied to pets topically – to pets' skin or fur – to control external pests. This includes shampoos, collars, dust or powder, sprays, and spot-on flea and tick products.

You can tell which agency regulates the product by looking at the packaging. FDA-regulated products will have the letters "NADA" or "ANADA," followed by six-digit number in this format: (A)NADA-xxx-xxx. Products regulated by EPA will carry the EPA registration number: EPA Reg. No. xxxxx-xxx.

Thanks,  
Shamus

**Subject:** RE: [EXTERNAL] RE: FDA request for assistance with messaging about regulatory jurisdiction over flea and tick collars (re: Seresto)

Hi Greg,

On this note, we received a media inquiry today from Greg Cima at JAVMA, requesting clarification on the regulatory oversight of flea and tick products and how FDA and EPA determine which agency will exert oversight. He said he also had a pending inquiry with you all, so I wanted to share our proposed response. Please let me know if you have any concerns – I was planning to get back to him before his deadline of tomorrow at noon.

Flea and tick products for pets are regulated by either FDA or the Environmental Protection Agency (EPA). FDA and EPA have an interagency committee that evaluates products on a case-by-case basis to determine the appropriate regulatory agency. FDA is responsible for regulating animal drugs; however, based on a consideration of various factors, certain products to control external parasites are regulated by EPA as pesticides.

You can tell which agency regulates the product by looking at the packaging. FDA-regulated products will have the letters "NADA" or "ANADA," followed by six-digit number in this format: (A)NADA-xxx-xxx. Products regulated by EPA will carry the EPA registration number: EPA Reg. No. xxxxx-xxx.

Attached is the biostimulants fact sheet from BPPD for OPP IO review. Please note that in order to keep this to 1 page, we only included 1 of the possible proposed definitions of a biostimulant. If we trim elsewhere we could include the second which is below. The team felt it important to at least provide one of the definitions in the fact sheet.

Here's the other proposed definition for PBS from the USDA's 2019 report:

"A plant biostimulant is a naturally occurring substance, its synthetically derived equivalent, or a microbe that is used for the purpose of stimulating natural processes in plants or in the soil in order to, among other things: improve nutrient and/or water use efficiency by plants, help plants tolerate abiotic stress, or improve characteristics of the soil as a medium for plant growth. The characteristics may be physical, chemical, and/or biological. The plant biostimulant may be used either by itself or in combination with other substances or microbes for this purpose."

**Subject:** FW: FY 2022 Appropriations Hearings – New or Updated Fact Sheets due to OPS COB 3/31

Good morning,

Following are a couple points of clarification for this fact sheet exercise and a brief budget update for the FY 2022 President's Budget.

**OCSPP Fact Sheet Internal Timeline:**

- **Monday COB, 3/29** – As Rick mentioned yesterday, input from Offices on any +/- changes to the list of fact sheet topics are due to OPS. Minor updates are included in the attached Table of Contents v3 based on OPPT and OPS feedback received yesterday.
- **Wednesday COB, 3/31** – Office Director approved fact sheets due to OPS;

- Friday, 4/2 – on a rolling basis, OPS begins clearance through Michal;
- Monday, 4/5 – OPS to provide OCSPP final fact sheets to OCFO.

*For the fact sheet template resource table, OPS can take the lead in populating FY 2022 President's Budget data, where applicable, once it becomes available.*

**Multi-Office Fact Sheets:** to avoid confusion, we propose that the following Offices take the lead, in consultation with other contribution Offices:

- 1) OPP – PFAS and Pesticide Containers;
- 2) OPP – Biotech/PIP;
- 3) OPP - Animal Testing;
- 4) Scientific Integrity – delete, ORD to take lead.

**Budget Update:**

- FY 2022 President's Budget Blue Print is planned to be released in April.
- Associated Congressional Justification final guidance and preparation timeframe are not yet known, but it is anticipated to be transmitted to Congress by mid-May, after the Hearings take place.
- Fact Sheets will be used by OCIR and OCFO in preparing the Administrator for the Committee Appropriation Hearings scheduled for late April through early May, as shown below.
  - HAC – April 21, time TBD
  - SEPW – April 28, 10AM

- HEC – April 29, time TBD
- SAC – May 12, time TBD

Good afternoon,

In order for the Administrator to prepare for the approaching FY 2022 Congressional budget hearings, OCFO has asked for us to update OCSPP fact sheets. We've annotated responsible Offices in the attached Table of Contents. Please consider any areas of considerable public or Congressional interest that may warrant a new fact sheet to be developed. The attached zip file includes the most recent versions of fact sheets from last year.

In order to meet OCFO's very tight timeline, we're asking for you to provide your OD approved fact sheets by **COB Wednesday, March 31**. That will allow us time to clear through Michal and revise as necessary. As outlined in the Table of Contents, we'll propose to OCFO that some of these topics be deleted. Note that OCIR and/or our leadership have asked for new sheets on the following topics:

- 1) Scientific Integrity;

Good afternoon,

In order for the Administrator to prepare for the approaching FY 2022 Congressional budget hearings, OCFO has asked for us to update OCSPP fact sheets. We've annotated responsible Offices in the attached Table of Contents. Please consider any areas of considerable public or Congressional interest that may warrant a new fact sheet to be developed. The attached zip file includes the most recent versions of fact sheets from last year.

In order to meet OCFO's very tight timeline, we're asking for you to provide your OD approved fact sheets by **COB Wednesday, March 31**. That will allow us time to clear through Michal and revise as necessary. As outlined in the Table of Contents, we'll propose to OCFO that some of these topics be deleted. Note that OCIR and/or our leadership have asked for new sheets on the following topics:

- 1) Scientific Integrity;
- 2) Recent Actions on PBT Rules;
- 3) Seresto Pet Collars;
- 4) PFAS and Pesticide Containers; and
- 5) Pollution Prevention.

We'll keep you apprised of any additional new topics that are requested. If you have any questions, please let Brian, Khanh or me know.

Thanks,

**Subject:** FW: FY 2022 Appropriations Hearings – New or Updated Fact Sheets due to OPS COB 3/31

Good morning,

Following are a couple points of clarification for this fact sheet exercise and a brief budget update for the FY 2022 President's Budget.

**OCSPP Fact Sheet Internal Timeline:**

- **Monday COB, 3/29** – As Rick mentioned yesterday, input from Offices on any +/- changes to the list of fact sheet topics are due to OPS. Minor updates are included in the attached Table of Contents v3 based on OPPT and OPS feedback received yesterday.
- **Wednesday COB, 3/31** – Office Director approved fact sheets due to OPS;
- Thursday, 4/1 – on a rolling basis, OPS begins clearance through Rick;
- Friday, 4/2 – on a rolling basis, OPS begins clearance through Michal;
- Monday, 4/5 – OPS to provide OCSPP final fact sheets to OCFO.

*For the fact sheet template resource table, OPS can take the lead in populating FY 2022 President's Budget data, where applicable, once it becomes available.*

**Multi-Office Fact Sheets:** to avoid confusion, we propose that the following Offices take the lead, in consultation with other contribution Offices:

- 1) OPP – PFAS and Pesticide Containers;
- 2) OPP – Biotech/PIP;
- 3) OPP - Animal Testing;
- 4) Scientific Integrity – delete, ORD to take lead.

**Budget Update:**

- FY 2022 President's Budget Blue Print is planned to be released in April.
- Associated Congressional Justification final guidance and preparation timeframe are not yet known, but it is anticipated to be transmitted to Congress by mid-May, after the Hearings take place.

- Fact Sheets will be used by OCIR and OCFO in preparing the Administrator for the Committee Appropriation Hearings scheduled for late April through early May, as shown below.
  - HAC – April 21, time TBD
  - SEPW – April 28, 10AM
  - HEC – April 29, time TBD
  - SAC – May 12, time TBD

Again, If you have any questions, please let Brian, Khanh or me know.

Thanks,

Dan

**Subject:** FW: FY 2022 Appropriations Hearings – New or Updated Fact Sheets due to OPS COB 3/31

Good afternoon,

In order for the Administrator to prepare for the approaching FY 2022 Congressional budget hearings, OCFO has asked for us to update OCSPP fact sheets. We've annotated responsible Offices in the attached Table of Contents. Please consider any areas of considerable public or Congressional interest that may warrant a new fact sheet to be developed. The attached zip file includes the most recent versions of fact sheets from last year.

In order to meet OCFO's very tight timeline, we're asking for you to provide your OD approved fact sheets by **COB Wednesday, March 31**. That will allow us time to clear through Michal and revise as necessary. As outlined in the Table of Contents, we'll propose to OCFO that some of these topics be deleted. Note that OCIR and/or our leadership have asked for new sheets on the following topics:

- 1) Scientific Integrity;
- 2) Recent Actions on PBT Rules;
- 3) Seresto Pet Collars;
- 4) PFAS and Pesticide Containers; and
- 5) Pollution Prevention.

We'll keep you apprised of any additional new topics that are requested. If you have any questions, please let Brian, Khanh or me know.

Thanks,

Dan

Just wanted to touch base with you on the budget 1-pagers. We've received most of the topics (listed below). I'm reviewing them now and checking to make sure they're in the requested format. Should I send them to the three of you, just one person for clearance? Do you have a preference? Just wanted to check ahead, before I start sending them for IO clearance. I plan to send them in batches. Once you clear them, I have to send them to Dan Kochis to prep and send to Rick. These are due to Rick by COB today.

Hi Mike and Darlene,

I've just been ask to add some hot topic TPs to the attached doc for a meeting with NCSL. The doc includes PFAS which needs some updating but I was thinking of adding some points about Dicamba, WPS and perhaps briefly acknowledge Seresto given the congressional interest.

I'll need to turn this around by 9:30 so if you have any other topic suggestions, just let me know. Otherwise, I'll just move forward with adding those topics.

Thanks,  
Shamus

Hello,

I hope this email finds you well. Jack Bowles from OCIR shared with me the email of Allison Dennis to ask for her assistance. Her out-of-the-office message directed me to you for any communication inquiries.

I have developed talking points based on hot issues shared by your office to support recent EPA's intergovernmental engagements (see attached). Can you please let me know if OCSP are OK with them? Please add any other talking points/hot issues OCSP would like to include. Can you please send me any feedback or contributions by **1 pm tomorrow (Thursday, April 1st)**?

The EPA Deputy Associate Administrator for Intergovernmental Relations, Casey Katims, will be having a 1-hr. Meet & Greet meeting with the National Conference of State Legislatures (NCSL) on April 2, 2021 at 2 PM EST. The goals of the meeting are: to provide state legislators an opportunity to meet Casey, hear the administration's priorities and how they impact states, and respond to questions from state legislators.

On a side note, I am Paul Fericelli the new States Liaison in OCIR's Office of Intergovernmental Relations. I look forward to working with you. My main role is to support HQ engagements with elected and appointed officials including governors, legislators and other elected/appointed officials from states, insular areas and local governments. I see this role as an opportunity to amplify their voices in the Agency, and also as an opportunity to amplify the voice of EPA in areas where elected and appointed officials from states, insular areas and local governments should engage.

Please contact me if you have questions.

Best,

Paul

Hi Sonam,

I hope this email finds you well! I was wondering if there was any information or background you could send me about the EPA's past actions and future plans for the regulation of the Seresto flea and tick collar.

My boss wanted a brief update since we have a group of constituents asking about it (mostly concerned regarding the reports of negative effects on pets), and just wanted him to be informed on how the agency is dealing with it since I know the EPA has taken some oversight actions.

Thank you in advance for your consideration!

- EPA encourages pet owners to discuss with their veterinarian whether flea and tick control is needed for their pets, which type of control product they should use if one is needed, to read the entire label before using the recommended pesticide product, and to follow all directions carefully, including monitoring the pet after application to see if side effects occur. Hi Darlene –

Michal has additional comments on #14 PFAS and containers and #20 Chlorpyrifos from the revision this morning. #20 is already very long. So when you revise, please also help reduce/streamline the bullet points to keep to 1 page.

#23 Dicamba also has comments, and like #20, please help reduce to 1 page.

Thanks so much

**Subject:** FW: FY 2022 Appropriations Hearings – New or Updated Fact Sheets due to OPS COB 3/31

Good afternoon,

In order for the Administrator to prepare for the approaching FY 2022 Congressional budget hearings, OCFO has asked for us to update OCSPP fact sheets. We've annotated responsible Offices in the attached Table of Contents. Please consider any areas of considerable public or Congressional interest that may warrant a new fact sheet to be developed. The attached zip file includes the most recent versions of fact sheets from last year.

In order to meet OCFO's very tight timeline, we're asking for you to provide your OD approved fact sheets by **COB Wednesday, March 31**. That will allow us time to clear through Michal and revise as necessary. As outlined in the Table of Contents, we'll propose to OCFO that some of these topics be deleted. Note that OCIR and/or our leadership have asked for new sheets on the following topics:

- 1) Scientific Integrity;
- 2) Recent Actions on PBT Rules;
- 3) Seresto Pet Collars;

- 4) PFAS and Pesticide Containers; and
- 5) Pollution Prevention.

We'll keep you apprised of any additional new topics that are requested. If you have any questions, please let Brian, Khanh or me know.

Thanks,

I know we are under a very short deadline to get these done. It looks like Michal didn't have any comments on the glyphosate and Oxitec fact sheets, so those can go to OCFO.

For formaldehyde, we will need help primarily from OPPT, so I've cc: Yvette and Mark.

For AEZ and Chlorpyrifos, I've offered some suggestions to try to address Michal's feedback, but these will need input from OPP.

For Seresto, I've offered a minor change that I think will address Michal's comment.

I know we are under a very short deadline to get these done. It looks like Michal didn't have any comments on the glyphosate and Oxitec fact sheets, so those can go to OCFO.

For formaldehyde, we will need help primarily from OPPT, so I've cc: Yvette and Mark.

For AEZ and Chlorpyrifos, I've offered some suggestions to try to address Michal's feedback, but these will need input from OPP.

For Seresto, I've offered a minor change that I think will address Michal's comment.

HI – The producer at CBS News (broadcasting tonight/tomorrow morning) is asking for a response to: How does EPA respond to the allegation that your agency "did nothing about it" - after receiving thousands of complaints and reports of 1700 deaths potentially linked to the collars. Below is an updated response based on the previous desk statement and other inquiries. The inquiry mentions "Bayer owned" instead of "Elanco" so let me know if you think that needs to be addressed/corrected outside of our response. Please review by noon and then I'll quickly move this to Rick and Michal for their review.

**RESPONSE:**

EPA understands that pets are part of the family in many American households and the agency is committed to following the science and the law as we work to address this issue and pursue our mission. EPA always encourages consumers to read and follow all pesticide product labels. Product labels are the law, and they are a vital part of EPA's efforts to ensure that consumers have the information they need to safely, legally, and effectively use EPA-approved pesticide products. EPA collects incident data to inform its risk assessments and takes reports of incidents like these very seriously.

Consumers who experience adverse reactions with use of a Seresto pet collar should notify their veterinarian and may also want to contact the [National Pesticide Information Center](#), an EPA information-sharing partner that has staff who are specially trained in responding to pesticide exposure incidents, including those involving pets.

**Additional Background Information:**

Incident reports are accounts of unexpected or unintended outcomes after using a pesticide. EPA tracks pet incidents through the Incident Data System. The information is reviewed to determine whether additional regulatory action is necessary. It is routinely used during EPA's review of pesticide active ingredients to ensure that they continue to meet the FIFRA standard of no unreasonable risk to human health and the environment. If reporting trends appear to indicate a problem, EPA will contact the registrant to request additional information or further look into the incidents.

EPA also receives incident reports directly from consumers and the National Pesticide Information Center (NPIC), which, in addition to receiving reports from consumers, has a portal for veterinarians' reports. Some incidents are well investigated and reported in such a way as to establish a strong link between the adverse effect and the exposure. On the other hand, many other reports do not include enough facts to clearly demonstrate causation. Many of the reports are anecdotal, with no indication of whether the user followed label use instructions or used a product appropriate for the pet type and size. Generally, however, there is no process for verifying the information in reports.

Section 6(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act requires pesticide registrants to report any factual information regarding unreasonable adverse effects on the environment of a pesticide to EPA. They are not required under FIFRA 6(a)(2) to investigate the incident to gather additional information.

Hello,

I am reaching out to you in regards to complaints and adverse events reports the EPA has received about Bayer owned Seresto Flea and Tick Collar.

Hi Mike and Darlene,

I've just been ask to add some hot topic TPs to the attached doc for a meeting with NCSL. The doc includes PFAS which needs some updating but I was thinking of adding some points about Dicamba, WPS and perhaps briefly acknowledge Seresto given the congressional interest.

I'll need to turn this around by 9:30 so if you have any other topic suggestions, just let me know. Otherwise, I'll just move forward with adding those topics.

Thanks,  
Shamus

**Subject:** PLEASE REVIEW: EPA engagement with NCSL on April 2nd

Hello,

I hope this email finds you well. Jack Bowles from OCIR shared with me the email of Allison Dennis to ask for her assistance. Her out-of-the-office message directed me to you for any communication inquiries.

I have developed talking points based on hot issues shared by your office to support recent EPA's intergovernmental engagements (see attached). Can you please let me know if OCSP are OK with them? Please add any other talking

points/hot issues OCSPP would like to include. Can you please send me any feedback or contributions by **1 pm tomorrow (Thursday, April 1st)**?

The EPA Deputy Associate Administrator for Intergovernmental Relations, Casey Katims, will be having a 1-hr. Meet & Greet meeting with the National Conference of State Legislatures (NCSL) on April 2, 2021 at 2 PM EST. The goals of the meeting are: to provide state legislators an opportunity to meet Casey, hear the administration's priorities and how they impact states, and respond to questions from state legislators.

On a side note, I am Paul Fericelli the new States Liaison in OCIR's Office of Intergovernmental Relations. I look forward to working with you. My main role is to support HQ engagements with elected and appointed officials including governors, legislators and other elected/appointed officials from states, insular areas and local governments. I see this role as an opportunity to amplify their voices in the Agency, and also as an opportunity to amplify the voice of EPA in areas where elected and appointed officials from states, insular areas and local governments should engage.

Please contact me if you have questions.

Best,  
Paul

I know we are under a very short deadline to get these done. It looks like Michal didn't have any comments on the glyphosate and Oxitec fact sheets, so those can go to OCFO.

For formaldehyde, we will need help primarily from OPPT, so I've cc: Yvette and Mark.

For AEZ and Chlorpyrifos, I've offered some suggestions to try to address Michal's feedback, but these will need input from OPP.

For Seresto, I've offered a minor change that I think will address Michal's comment.

I know we are under a very short deadline to get these done. It looks like Michal didn't have any comments on the glyphosate and Oxitec fact sheets, so those can go to OCFO.

For formaldehyde, we will need help primarily from OPPT, so I've cc: Yvette and Mark.

For AEZ and Chlorpyrifos, I've offered some suggestions to try to address Michal's feedback, but these will need input from OPP.

For Seresto, I've offered a minor change that I think will address Michal's comment.

Hi Ed,  
(Greg suggested I reach out to you on this)

As you might remember, I am helping fill in as ombudsman for Nicole while she is on detail. We are starting to see a plethora of inquiries of complaints of pet illnesses about pet collars likely in response to the USA Today article.

Here is our template response for pet incidents:

*Thank you for writing the Environmental Protection Agency's Office of Pesticide Programs.*

*We have forwarded the information you provided to our adverse effects reporting branch. Please be sure to follow up with your veterinarian and provide the same information you provided to us to ensure the best diagnosis and follow-up care. You might also want to contact the National Pesticide Information Center, an EPA information-sharing partner that has staff who are specially trained in responding to pesticide exposure incidents, including those involving pets.*

*We hope you find this information useful. Please write us again if you have additional questions.*

Would you like us to keep using this response, or would you like us to add anything?

A suggestion might be:

-We are aware of the increased attention from pet owners about the Seresto flea and tick collars and we are looking into it.

Please let me know what you think.

Thank you!  
Mary

From the team:

- We spoke to Elanco last week (3/10) to alert them to the missing 6a2 submissions, which they responded by submitting the information which we have received and entered into the IDS
- Elanco rep called Jackie today to discuss the congressional inquiry
- We just left a message now with the goal of setting up a meeting next Tuesday at 4 pm. Our plan is to request that they provide us with a presentation of their analysis of the incident information and we will be prepared to ask them questions.
  - o We would like to request additional information – enhanced reporting including narrative information describing the incidents and sales data to inform. We would plan to follow up with a 6a2 letter describing the data request.

**Subject:** for Michal/Rick review: CBS News Inquiry- Seresto; DDL 4pm today

Hi Michal and Rick,

The producer at CBS News (broadcasting tonight/tomorrow morning) is asking for a response to the allegations the agency lacked action regarding pet collar deaths. The response cites that we are engaging with company (Elanco now owns Seresto, not Bayer) to learn more and address the issue.

**INCOMING:**

I am reaching out to you in regards to complaints and adverse events reports the EPA has received about Bayer owned Seresto Flea and Tick Collar. How does EPA respond to the allegation that your agency "did nothing about it" - after receiving thousands of complaints and reports of 1700 deaths potentially linked to the collars. We are working on a deadline of 4pm EST today, March 18th.

## Ex. 5 Deliberative Process (DP)

Section 6(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act requires pesticide registrants to report any factual information regarding unreasonable adverse effects on the environment of a pesticide to EPA. They are not required under FIFRA 6(a)(2) to investigate the incident to gather additional information.

**Subject:** for Michal/Rick review: CBS News Inquiry- Seresto; DDL 4pm today

Hi Michal and Rick,

The producer at CBS News (broadcasting tonight/tomorrow morning) is asking for a response to the allegations the agency lacked action regarding pet collar deaths. The response cites that we are engaging with company (Elanco now owns Seresto, not Bayer) to learn more and address the issue.

**INCOMING:**

I am reaching out to you in regards to complaints and adverse events reports the EPA has received about Bayer owned Seresto Flea and Tick Collar. How does EPA respond to the allegation that your agency "did nothing about it" - after receiving thousands of complaints and reports of 1700 deaths potentially linked to the collars. We are working on a deadline of 4pm EST today, March 18th.

## Ex. 5 Deliberative Process (DP)

Section 6(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act requires pesticide registrants to report any factual information regarding unreasonable adverse effects on the environment of a pesticide to EPA. They are not required under FIFRA 6(a)(2) to investigate the incident to gather additional information.

Revised, let me know if you have any other thoughts. I moved the labeling question to be a part of #2 as it's related. I reordered as well: questions 1-3 are more discussion-related while 4-7 are data asks that would be provided at a later time.

OCSPP Budget Hearing Team – I went through past year files identifying congressional issues touching OCSPP from authorizers and appropriators. The review included email, letters, hearings and QFRs. They are organized by committee and member -- the idea is you could add items to the appropriate fact sheet if relevant and important. Potentially significant issues are highlighted to distinguish from constituent inquiries such as disinfectant products unlikely to come up in a budget hearing. For completeness – we have the following outstanding hill letters:

- Rep. Gimenez – Oxitec
- Rep. Lucas – Systematic review
- Rep. Krishnamoorthi – Seresto pet collars (oversight)
- Sen. Sanders – Seresto pet collars

Please let me know if any questions. Thanks,  
Sven

I know we are under a very short deadline to get these done. It looks like Michal didn't have any comments on the glyphosate and Oxitec fact sheets, so those can go to OCFO.

For formaldehyde, we will need help primarily from OPPT, so I've cc: Yvette and Mark.

For AEZ and Chlorpyrifos, I've offered some suggestions to try to address Michal's feedback, but these will need input from OPP.

For Seresto, I've offered a minor change that I think will address Michal's comment.

OCSPP Budget Hearing Team – I went through past year files identifying congressional issues touching OCSPP from authorizers and appropriators. The review included email, letters, hearings and QFRs. They are organized by committee and member -- the idea is you could add items to the appropriate fact sheet if relevant and important. Potentially significant issues are highlighted to distinguish from constituent inquiries such as disinfectant products unlikely to come up in a budget hearing. For completeness – we have the following outstanding hill letters:

- Rep. Gimenez – Oxitec
- Rep. Lucas – Systematic review
- Rep. Krishnamoorthi – Seresto pet collars (oversight)
- Sen. Sanders – Seresto pet collars

Please let me know if any questions. Thanks,

Thanks Dan. I've reviewed all of the fact sheets that were on the Teams site as of 7:30am.

- I don't have any comments on MC or PBTs.
- For systematic review, I have a quick question for OPPT. Their answer may necessitate a tweak to the fact sheet.
- For existing chemicals, I had a minor tweak. I don't think this one has to go back to OPPT.

- For the GAO audit, I thought a few of the bullets were a little jargony. I think those two bullets need to be put in lay terms. Also, I wanted to flag that this one may need some further updating depending upon whether the TSCA investment proposal is added into the FY22 Pres Bud.
- For PCBs and Lead, we had submitted a proposal to OP seeking to target some of the American Rescue Plan funds for schools. If the Administrator accepts that proposal, these two fact sheets could benefit from an additional or revised bullet that references that decision.

Hi Rick –

Dan and I wanted to check in with you on your prefer ways of reviewing the fact sheets and have them cleared through Michal. We also are not clear on Michal's preference.

Please let us know what would work best for you and Michal on these fact sheets:

A) Via Teams:

- 1) OPS/ITRMD (either Khanh or Dan) loads into a Teams site and send Rick the link via email
- 2) Rick will provide edits/comments in track changes in Teams
- 3) ITRMD incorporate Rick's comments and prepare clean files for AA's clearance
- 4) Rick sends link to Michal for her clearance
- 5) Michal provides edits/comments in track changes and emails Rick, cc ITRMD
- 6) ITRMD incorporates Michal's comments and prepares files for submitting to OCFO by COB Monday 4/5

B) Via Teams through Rick and via emails for Michal: steps 1) through 3) via Teams; steps 4) and 5) by emails.

Good afternoon Rick and Carol Ann,

We collected feedback from OCSPP on proposed revisions to the Table for Contents for the FY22 fact sheet process included in the attached. New items are flagged as such and proposed deletions are struck through. There are a couple highlighted new items that we'd like your input on as to whether or not you think they should be included. This is due to OCFO COB tomorrow.

Aside from topic additions and deletions, we tried to relabel titles and restructure the order according to topic area. OCFO confirmed that we can restructure however we feel best supports the presentation of our information.

The second attachment is from Sven. He went through Congressional and constituent inquiries from the FY21 process and compiled a list. In general, I think we have the broad topics covered, but it's difficult to say if we have everything without seeing the fact sheets. Some outliers might be EPP Plastics, Lead Dust, PRIA Fees, and TSCA Scientific Integrity. Regardless, we did share Sven's list with Offices.

Thanks for your help in advance.

- Here is OCSPP internal timeline:
